Perils of Indians, River Not Enough to Keep Early Settlers Away from City

Granite City in August will observe its 75th anniversary as a city. To help build interest in the occasion, the Press-Record now and in future issues will recall highlights of the past.

Below is the first in a series of articles on the beginnings of the municipality. It is based on historical information originally published by the Press-Record in 1946.

South of Alton along the western border of Illinois, the Mississippi has carved a lens-shaped valley amid hills of yellow loess.

Known traditionally as the American Bottoms, the valley is 70 miles long and between one and seven miles wide. Fields of corn and wheat checker board most of its extent, but at the northern tip opposite St. Louis lies a vast industrial zone.

There, among thunderous mills and busy terminals of railroad trunk lines, sprawl a dozen suburbs and such cities as Wood River, East St. Louis and Granite City.

Build a mile inland from the river, Granite City is an important steel center and the largest municipality in Madison County. On the south it adjoins Madison, which in turn adjoins Venice.

To the east and north are the village of Pontoon Beach and the large populated center known as Mitchell.

These areas and Granite City comprise the Quad-Cities, most highly industrialized section in Madison County and one which has also taken on additional dimensions with the passing years.

This community still provides a large number of jobs, for people residing here and elsewhere. But it also has been selected as the home town of thousands who commute to employment in Missouri or in other parts of Illinois.

Venice, an early-day ferry landing, was laid out in 1841. Madison sprang up in 1891 as a residential adjunct of the American Car & Foundry shops.

Although the site of this community appears to be as flat as the underside of a turtle, Granite City rests on a bulge of the valley floor.

Its altitude of 431 feet above sea level is six feet higher than that of Madison and 21 feet higher than the altitude of Venice.

Unlike many another community in the American Bottoms, Granite City cannot trace its ancestry to an Indian village, a French trading post or a pioneer ferry landing.

A geographer would ascribe this lack of lineage to the fact that the site of Granite City for centuries was subject to floods of the Mississippi.

But more subject to floods was the site of Illinoisston (East St. Louis), six miles south of Granite City, where Capt. James Piggott, veteran of the Revolutionary War, began operating a ferry in 1785.

And more subject to floods was the site of Cahokia, an ancient Indian village five miles south of Captain Piggott's ferry, where French priests had established a mission in 1699.

As geographers would hasten to point out, Cahokia and Illinoisston had natural advantages which the site of Granite

City did not afford. Captain Piggott's ferry was opposite the shore on which lay germinal St. Louis.

Cahokia commanded the mouth of a creek which, although only knee-deep when Col. George Clark saw it in 1778, once had provided Indians with abundant fish and given access to country everrun with game. And the site of Granite City? It had nothing to offer except rich alluvial soil and that, in a vast valley of fertile acres, went ignored by Indians and Frenchmen.

Fertile soil was appreciated by settler Frenchmen such as Nicholas Jarrot, a merchant who lived in semifeudal grandeur at Cahokia, and by land-hungry Yankees and Southerners who in the early 1800s began to migrate from native fields onto the unploughed prairies.

In 1808, the year in which Illinois became a territory, the territorial court recognized Jarrot's claim to 400 acres of what is now Granite City on the basis of "improvements" he had made there.

The improvements probably consisted of little more than bottomland clearings cultivated by habitants in Jarrot's employ.

The first recorded settler on the site of Granite City was Dr. George Caldwell, whom historians describe as a "live enterprising Yankee who combined the practice of medicine with tilling the soil."

A native of Weathersfield, Conn., Dr. Caldwell had been educated at Rutland, Vt., where he met and married Pamela Lyons.

In 1790, with his family and families of his father-in-law, Mathew Lyons, and his brother-in-law, John Messinger, the young doctor traveled overland to the Ohio and then floated downstream in a flatboat to the mouth of the Cumberland River.

Twisting inland on the Cumberland for 50 miles, the party came to Edwylville, Ky., and settled there.

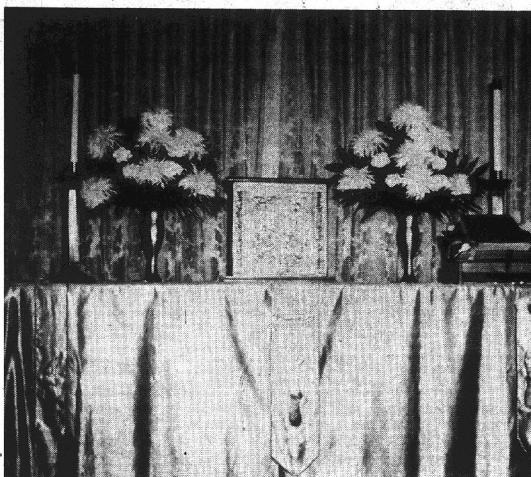

Somewhere on the journey westward, perhaps while watching the sun rise in the Alleghenies or lying atop a flatboat on a moonlit night, Dr. Caldwell contracted the Western Fever.

This strange malaise, which affected the whole nation a few decades later, impelled its victims to search for golden fields that always lay just a few miles ahead.

Dr. Caldwell resisted the affliction several years, for life in Edwylville was pleasant enough.

But when Illinois became part of the Indiana Territory in July 1801, and stories began to circulate about choice lands to be had in the American bottoms, Dr. Caldwell decided to try his luck in the new territory.

INSTALLED FOR EASTER. This cloth of gold, designed with the traditional symbols of St. Bartholomew's Episcopal Church, was received in time to be placed on the high altar of the church. Shown with it is Rev. Wilbur L. Lear, pastor. Presented

by a member of the church as a memorial to Walter Harris, senior warden of the parish prior to his death in November, the cloth will be used for major church festivals.

Stage Pageant, Parade During August Jubilee

Detailed planning is well under way for what promises to be a mammoth observance of the city's 75th anniversary and park district's 50th anniversary. Barry Loman general chairman of the 1971 Granite City Jubilee, has reported.

The celebration will be concentrated in the period beginning Saturday, Aug. 21, and ending the following Saturday, Aug. 28.

Highlights will include a large parade on the opening day and nightly performances of a stage pageant depicting the history of Granite City. A cast of dozens and perhaps hundreds will appear in appropriate costumes to portray significant events of past years.

A not-for-profit corporation, Granite City Diamond Jubilee, Inc., has been formed, with Lomas as president and Albert H. Froemling, vice-president.

Froemling, who is president of the Chamber of Commerce of the Tri-Cities, is one of three honorary festival chairmen working closely with Loman. The others are Mayor Donald Partney and Henry R. Gabriel, president of the Granite City park board.

Headquarters chairmen will be Carl Roach and Sidney Womack. Edward R. Kellogg, Chamber of Commerce executive manager, is the jubilee secretary and Jerry McDonald is treasurer.

Chairmen include Ernest E. Veith Jr., men's participation

committee on use of funds. A committee will be named to review possible projects and executive recommendations to the jubilee executive committee.

Governor Urges Grant To Music Festival by Illinois Arts Council

Two developments late last week gave added hope that the Mississippi River Festival concert series will have a third summer season this year.

Six-week guaranteed summer employment for St. Louis Symphony Orchestra musicians was assured by a vote of the executive committee of the Symphony Society board of directors.

And Illinois Governor Richard B. Ogilvie said Friday he will ask the Illinois Arts Council to approve a \$50,000 grant for the river festival.

The MRF had successful years in 1969 and 1970 but adequate funds have not yet been assured for 1971.

Ogilvie said he had talked with George M. Irwin of Quincy, chairman of the Arts Council. Both agreed to ask the full membership of the council to approve formally the \$50,000 which has been sought. If authorized, it would become available on July 1 with the start of the 1972 fiscal year.

"As I indicated previously," the governor said, "the Arts Council seems to me to be a proper source of funds rather than Southern Illinois University, which will make possible the continuation of the Festival." The MRF is held on the SIU-SW campus.

Ogilvie noted that the council, a state agency, is obligated under Illinois statutes to use its funds to encourage and support matters of musical and cultural interest.

His comment Friday was the first public indication by the governor that he favors continuation of the Festival. At his urging, the SIU board in 1970 underwrote \$75,000 of that year's

Pyramid Parties. "We hope funds will be found to continue this public service so essential to the quality of life in our area."

A group of music-loving area citizens has formed a committee to raise \$109,600 through a chain of parties.

Each guest at such parties pays \$1 to attend and agrees to give a benefit party of his own.

The festival features concerts by the Symphony, contemporary (Continued on Page 4, Col. 2.)

Kemp Winner in Madison School Election Upset

An upset occurred in the Madison school district Saturday when Theodore Kemp won one of the two board positions which were being decided.

Derner and Oel Blumenstock, incumbent board members, had been favored. But Kemp polled 865 votes and Derner 778 to take the two posts, and Blumenstock lost with a total of 710 votes.

Balloting was relatively heavy, especially in the Blair-Dunbar school area; the grand total was 1,567.

This total contrasted with the light turnouts of 499 in Granite City, where three incumbents won new three-year terms without opposition, and 175 in the Venice school district, which also had three present members re-elected.

Reorganization Schedule. Canvasses and board reorganizations are set for tonight in Granite City, Thursday night in Madison and next Monday night, April 19, in Venice.

Kemp, clerk of the A. O. Smith Corp. engineering department, received 757 of 762 ballots cast at Blair School and 108 of 805 cast at Harris School.

Derner, a salesman who has been on the Madison board for three full terms, polled 71 at Blair and 707 at Harris.

Blumenstock, a board member 19 years who is a welder and fabricator at the Milnor Manufacturing Co., received 41 votes at Blair and 689 at Harris.

Spotted ballots numbered five at Blair and 24 at the Harris precinct.

Venice Vote Tally. In the Venice school district election Saturday, Leo Daviny received 223 votes at the Venice School and 45 at Eagle Park Acres for a total of 167.

Elmer Taylor polled 121 and 45 for 166, and Jack Tolliver received 118 and 45 for 163.

Daviny, a carpenter and the school board president, has served more than 20 years on the Venice board.

Taylor, an Army Depot employee, has been on the school board six years and Tolliver, Venice city engineer and an employee of the U. S. Housing and Urban Development Department, has served on the board for three years.

Granite City Results. Granite City school balloting saw the three unopposed candidates win with small totals, Donald W. Stucke leading with 399, George E. Moore Sr. receiving 361 and Harold W. Mitchell 359.

The total vote of 499 included 19 spotted ballots.

Stucke received 144 votes at McKinley School, 17 at Lake, 13 at Washington, 11 at Logan, 10 at Emerson, 46 at Webster, 32 at Marshall, 78 at Niagara, 50 at Frohardt, 15 at Maryville, 15 at Wilson, 17 at Marwick, 28 at Parkview, 18 at Mitchell and 13 at Stalling.

Moore has completed two terms on the Granite City board and Davis and Stucke one full term each. Moore is director of quality assurance at the Army Depot, Davis is an electrician at Granite City Steel Co. and Stucke is a tool designer at Carrier Carburetor Co.

6 DAYS WITHOUT A QUAD-CITY TRAFFIC FATALITY

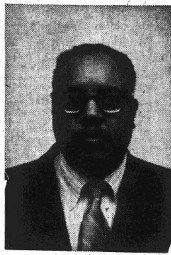

Press-Record Will Be 15 Cents Per Copy Beginning April 15

Rising labor and material costs have caused hundreds of newspapers in the United States to raise their price per copy to 15 cents. The Press-Record will follow the national trend by increasing its price to 15 cents effective with the next issue, Thursday, April 15, 1971.

Steadily greater operating costs have been encountered in recent years. The cost of newsprint, for example, has been rising twice a year for some time, the latest increase occurring this month. Equipment, supplies and wages also have become bigger cost factors.

Newsboys will receive a substantial share of the price increase in order to aid them in coping with the impact of inflation on their personal budgets.

Continuing improvements in news coverage and advertising services are planned. The owners and staff pledge to make the Press-Record as interesting, thorough and exciting a newspaper as is humanly possible.

'Sorry, I Didn't Pay The Toll'—in 1952

Madison City Comptroller E. J. Miller received a surprise this week when he opened a letter from Warren, Mich., addressed to the Chain of Rocks Bridge toll gate.

Inside the envelope was a \$1 bill and an unsigned note explaining:

"While passing over your bridge in 1952 or so, I waited for a little while, but he didn't show up. So I passed over without paying."

The letter continued, "I am making restitutions, so here is a dollar. That should cover all costs. Thank you."

Miller explained the toll at the bridge in 1952 was 25 cents plus five cents per passenger in the auto, or 15 cents plus the passenger fee with a ticket.

Steel Imports Set Record During First 2 Months

Steel imports entered the United States at a record rate during the first two months of 1971.

According to government statistics supplied American Iron and Steel Institute, 1,220,000 tons of foreign steel arrived in the U.S. during February—the highest February total ever. Through the first two months of the year, 1971 steel imports hit 2,534,000 tons—a record January-February figure. This tonnage was 71.5 percent greater than the 1,478,000 tons of foreign mill products which arrived in the United States during the first two months of 1970.

Sheets, plate, structurals and pipe continue to account for at least half of all foreign-made steel arriving in this country. Cold rolled sheets were the month's largest single steel imports at 285,000 tons. Imports of hot rolled sheets were down from January's figure, but still totaled 146,000 tons. Galvanized sheets climbed to 106,000 tons of imports during the month, while the import figures for plates—122,000 tons and pipe—131,000 tons—were close to their January level.

Stainless and alloy steel imports reached nearly 40,000 tons in February, pushing their two month, 1971, total to almost 83,000 tons. Imports of these products were somewhat more than 80,000 tons during the comparable period of last year.

Exports, meanwhile, sagged to 199,000 tons in February—their lowest total in two years.

Horace Calvo (D-Granite City), right, sponsor of legislation to create a Quad-City area levee district. The petitions are presented by Albert Bell, left, and Louis Whitsell of Nameoki township. Ogilvie Urges U.S. Retain Department of Agriculture

Gov. Richard B. Ogilvie last week asked Congress to retain the department of the U. S. Department of Agriculture in any reorganization of the federal government. Ogilvie's announcement followed a three-hour session in the governor's office with leaders of the state's largest farm and rural-oriented organizations. On the advice of the farm leaders, Ogilvie said he would urge members of Congress to revise President Nixon's proposed federal reorganization plan to "guarantee continuation of the department as a viable force to represent the interests of the farmer and to guarantee his legitimate interests in our society."

The session with the farm leaders marked the first meeting of the governor's new Cabinet for Rural Development, a permanent state group charged with strengthening the economic climate in Illinois' vast rural areas.

Achieve Agreement

Two points of discussion during the "informative and productive" session achieved "unanimous agreement," Ogilvie said.

"One was the need to retain the present autonomous status of the Department of Agriculture in Nixon's governmental reform plan, which calls for the consolidation of eight federal departments into four broad functional departments."

On the second point of agreement, Ogilvie said: "Something has got to be

New Law Would Permit 18-Year-Olds to Drink

By IRA TEINOWITZ
Press-Record Springfield Correspondent

The old argument has been changed. Now it's "if you are old enough to fight, you're old enough to drink."

State Rep. Raymond W. Ewell (D-Chicago), has introduced a bill into the House to lower the drinking age to 18.

"A person at 18 is now an adult," Ewell said. "He should be able to participate fully in our society."

Ewell noted that women at 18 tend to socialize with people slightly older. He said he sees the lower drinking age as an answer to make contracts, get married, vote and drink.

"The law should take cog-

nizance of changes in the maturity of the young," he said.

Ewell, who said he started drinking before he was 21, also suggested changes in marijuana laws.

Although he does not advocate legalization of marijuana immediately, Ewell said it should not be classified as a hard drug and possibly the smoking of it should eventually be legalized for adults.

"The important thing," Ewell said, "is to bring youth back into society."

With all the ages going down, Ewell was asked if he felt 13-year-olds should be allowed to run for offices like state representative.

"Yes," he said, "in other districts."

Increasing complaints of vandals shooting display windows at Umlerhine's Furniture Store, 2200 Cleveland blvd., and the Michel building, 2200 Edison Ave., are being made to police by their owners and operators.

Umlerhine's reported Thursday that eight BB holes were shot in the windows during the night, and on Friday reported that five plate glass windows were shot. The proprietor complained that his insurance is going to be canceled.

rock groups and other popular and classical musical artists.

Arts Council Chairman Irwin said during the weekend that "the council feels favorably toward the \$50,000 proposal but there are several areas of participation in which the council is interested."

Meeting Friday, Monday
"Council and River Festival officials will meet in Chicago on Friday, April 16, to discuss this matter," he said. The council wants to direct its financial help toward underwriting the cost of bus transportation and MRP tickets for Illinois residents, and the cost of hiring Illinois musical artists.

Any aid will not be state funds but will be federal matching grants and private philanthropic funds the council expects to receive by July 1, Irwin said. He stressed that approval will hinge on whether the council and MRP can agree on how the money will be spent.

The Festival board of directors will meet next Monday, April 19, in Granite City to reach a final "no go" decision on the 1971 Festival, which has been scheduled to begin in early July.

Summer School Program For Gifted Announced

Special courses designed to enrich the education of students recommended by their teachers will be offered this summer at Granite City Junior High School. It was announced by Mrs. Sally Sowell, director of the gifted program.

The classes are for students who have completed the fourth, fifth or sixth grade and who have shown ability to benefit from such a program. It will be held daily from June 7 to July 23.

Applications with book rental fee of \$2.50 are due at the student's school by April 26.

Areas of study differ from that taught during the school year, Mrs. Sowell said. Students may choose what they wish to study, and in most classes, study together the method of study.

Mrs. Sowell noted that a close relationship between the student and teacher exists due to the lower student-teacher ratio and the freedom of curriculum content.

Subjects of Interest

The classes are designed for enrichment, to allow a student to delve into subjects of particular interest to him or to work in areas he has not had the opportunity to study during the school year.

Several new classes have been added this summer, including Math to Enjoy, Human Anatomy, Language of Maps & Globes, Reading for Fun, American Folk Music and Physical Fitness.

Students may select two units from group I or one unit from each of two groups, with each unit to last an hour and 20 minutes in 9 a.m. to noon sessions.

Group I offerings are Computer Language, Creative Dramatics, Experimental Science, Imaginative Writing, Nature Study, Novels in Paperback, Oceanography, Pre-historic

Times, Speed Reading (fifth and sixth grades).

Typing I, Typing II, Use of the Library, Russian, Beginning Spanish, Intermediate Spanish, Introduction to German, Intermediate German, Math to Enjoy, Human Anatomy, Language of Maps & Globes, Reading for Fun and American Folk Music.

Group II offers Adventures in Art, Intermediate Band, Industrial Arts for boys and girls, Physical Fitness for sixth grade boys only.

MORE ABOUT Perils of Indians

he-along with scores of others—accumbed.

When spring came in 1802, Dr. Caldwell and John Messinger loaded a boat with provisions, bade farewell to their families, and drifted down to the Ohio.

Passing the site of Cairo, they turned upstream into the Mississippi.

Near Fort Chartres, massive outpost of empire that France had lost to Britain in 1765, the two voyagers went ashore.

Though they saw good sites for homesteads, none caught their fancy and they continued up the river to Cahokia.

There, at the crossroads of the frontier, they mingled with swashbuckling voyageurs, Jean hunters in buckskins, half-wild Tamaras and Negro slaves from Santo Domingo.

While in Cahokia, Dr. Caldwell probably learned of the tract that he subsequently purchased: 200 acres of bottomland on which part of West Granite is built.

Dr. Caldwell and John Messinger returned to Kentucky, bundled their goods together, and brought their families to Illinois.

Although the little band of New Englanders was now accustomed to the hazards of pioneering, the perils in the bottomlands must have demanded fresh outlays of courage.

Surely Indians skulked in nearby forests. And the Mississippi, with floods and malarial swamps, presented a constant menace.

At Eddyville, there had been neighbors. But, here no smoke from friendly cabins rose above the tangle of willows and cottonwoods.

In the vast area that was to be Madison County, there were scarcely a dozen white men and only one settlement—a break in the woods named Goshen.

Next: Militia land claims and county government.

1 Inducted Friday, 19 Take Army Physicals

Ronald Eugene Tinker of Granite City was inducted into the Army Friday morning and 19 young men from here reported for physical examinations.

The April draft call had designated three young men from the Granite City board to be inducted and 23 to report for examinations.

The Alton Selective Service board 163 called two young men for induction and 22 for physical examinations while the Edwardsville board inducted three young men and sent 35 for examinations, also Friday morning.

The draft call for Madison County this month is for 12 inductions and 93 physical examinations but only six men reported during the month for the Army and 76 received examinations.

The May draft calls for Madison County are expected to be announced Friday.

Stocking of Fish To be Increased

The number of fish stocked by the Illinois Department of Conservation in Illinois waters may be greatly increased this year.

A five-year research study by Ray Fisher, Fairfield, fishery biologist for the division of fisheries, shows that a higher rate of stocking will produce better fishing.

"In the past we stocked largemouth bass and bluegill at a rate of 100 each per surface acre of water," said Al Lopnot, chief fisheries biologist.

"However, we have found that insufficient fish management by the owners of lakes and ponds results in poor fishing within a few years following the initial harvest of fish."

Floor fishing results as the fish multiply and begin crowding the lake, Lopnot said. Fishery biologists have found that stocking 100 largemouth bass and 1,000 to 1,500 bluegill per surface acre of water will result in much better fishing during the first few years, with or without proper fish management. With proper management, good fishing will be possible indefinitely.

"The problem is that no matter how many fish we stock in the ponds, the fishing will be

come poor if the water area is not properly managed," Lopnot said. "Another problem is whether our fish hatcheries can keep up with the demand if we offer this increase in fish."

Township Electors to Meet in Area Tuesday

Electors of the four townships of the Quad-City area will meet in annual sessions prescribed by state law tomorrow to act on financial matters and discuss governmental issues within the townships.

Granite City township also will conduct a public hearing on its 1971-72 township budget at 6 p.m., one hour before the town electors' meeting is to be held at 7 p.m. Both meetings will be held in the council chambers on the third floor of the city hall.

While revised state laws governing township operations permit the town board rather than the electors to give final approval to budgets and tax levies, the new budgets are expected to be a matter of discussion in the meetings.

Venice township, which will hold its town meeting at 2 p.m. tomorrow in the city hall at Venice, published a legal notice of its meeting which included action on the budget and tax levies as topics of discussion.

The Namekoi town electors' meeting will be held at 7 p.m. tomorrow at the town hall, 4250 Highway 162. The Namekoi town board also is to meet to-night.

Chouteau township electors will hold their annual meeting tomorrow at 7 p.m. in the hall at the Sun and Fun Park at Mitchell.

AT RAPID ATTENTION State Treasurer Alan Dixon of Belleville, and chairman of the McKendree College Board of Trustees, Charles Daily, listen attentively at a "McKendree Faces the Future" campaign meeting. The campaign has the goal of raising \$300,000 for the college by July 1.

Reports Due Thursday in McKendree Drive

What's new with the "McKendree Faces the Future" fund drive?

Lots, with much more on the way. At the initial April report meeting when the adding machine tape had been cleared away, a total of \$32,067 was reached. This represents 11% of the \$300,000 needed by July 1 of this year. All of the money collected is needed to balance this year's operating budget.

There was no report meeting last week because of holy week. The next report meeting will be at 7:30 Thursday in Ames Hall on the McKendree College campus. It will be coffee, dessert, and reports. All workers have been urged to complete their calls.

At the last report meeting Miss Elsie Naumer made the most calls in one week of any campaign worker and Mrs. Dorothy Terkiele collected the most dollars of any campaign chairman. For their excellent efforts, the girls were awarded miniature McKendree Bearcats. Both ladies are from Lebanon.

Two more Bearcats will go to the winners at the next "McKendree Faces the Future" report meeting. Any one who wish to make donations may do so simply by calling 618-537-4481 or writing the Campaign Headquarters, "McKendree Faces the Future," McKendree College, Lebanon, Ill. 62254.

"MAINLINING"—THE QUICKEST ROUTE TO THE END.

Drug abusers are noted for their curiosity. Right now, according to reliable statistics hundreds of thousands of teenagers and even grammar school students are experimenting with dangerous illicit drugs.

The more sophisticated, influenced by unscrupulous "drug pushers," are being told to speed up the drug effects by "mainlining," which is the injection of forbidden drugs directly into the veins.

Because of lack of precautions for the proper sterilization of the medicine droppers, hypodermic needles and other crude methods used, "mainliners" are suffering hepatitis, septicemia, tetanus and acute endocarditis. Any of these can be deadly.

The next issue of Drug Abuse News will discuss our conclusions about Drug Abuse and reasons why experimenters with illicit drugs are most unwise.

Escape Neils Prisoner Term in County Jail

A prisoner being escorted by a Granite City police officer from the court room to a jail cell made a dash for freedom and escaped Thursday afternoon but it was short lived. He was caught after a chase of three to four blocks.

He is Marvin Lee Bazzell, 19, of 206 Kirkpatrick Homes, who had been arrested that morning on charges of perjury in connection with possession of a fraudulent driver's license and with battery. He had been placed under \$5,000 bond.

After being returned to magistrate's court, Bazzell pleaded guilty to escape and to the license charge and was sentenced to 44 days in the county jail.

GOP Now 'Third Party' in Chicago, Rentschler Says

By IRA TEINOWITZ
Press-Record Springfield
Correspondent

William H. Rentschler, head of an anti-Ogilvie Republican group and former candidate for the Republican U.S. Senate nomination, says the loss of Richard Friedman in the Chicago mayoral race had little to do with Ogilvie's support. But Rentschler says the defeat indicates "the Republican Party in Chicago is now really the third party, behind the Democrats who were dominant and what I would describe as the liberal independents."

He said the Republican organization in Chicago is probably as weak as it has even been and could greatly hurt the state ticket in 1972. Noting that Friedman was highly effective for his own cause, Rentschler commented, "He probably lost at least as many Republican votes, conservative votes and ethnic votes."

Friedman, a former Democrat, ran as an independent

with Republican backing. "I think we would have been better off to run a bonafide Republican who would have been dedicated to building up the Republican Party in Chicago which is rather desperately needed," Rentschler said.

Suggesting Ogilvie did the right thing in working for Friedman, Rentschler said it might not hurt the Governor either. "It gives the Governor a certain entree to some of those groups that supported Friedman," he said. Rentschler cited specifically blacks, youth and liberals as some of the groups.

Asked about the possibility of a primary fight if Ogilvie runs for re-election in 1972, Rentschler said, "I would not be involved in a primary fight and I would have no idea if there would be a primary fight in the Republican Party."

"It depends on the polls, on Mr. Nixon's attitude and possibly even on Mr. Percy's attitude. I think it is clear right now that the Governor has dug himself into a rather deep hole."

1,424 Corporations Licensed in March

Secretary of State John W. Lewis has announced that 1,424 certificates of incorporation and authority were issued to Illinois and out-of-state corporations in March, an all time record for any one month in the history of the Corporation Division.

The record figure is an increase of 254 over the 1,170 new corporations licensed in March of last year. In the first three months of this year, 3,600 corporations were chartered or licensed in Illinois, for an increase of 313 over the 3,289 new corporations in the first three months of 1970.

The Corporation Division collected \$1,070,357.22 in fees and taxes during March, or a decrease of \$131,431.25 from the \$1,202,388.47 collected in March 1970. In the first three months of 1971, the Division has collected \$2,356,134.22, representing a decrease of \$21,188.67 from the \$2,678,016.89 collected in the same period of last year.

Secretary Lewis explained that the decrease in fees is still a reflection of the lowering of the minimum franchise tax from \$100 to \$25, which was effective July 1, 1970.

At 10:30 a.m. Wednesday he will speak in the St. Clair Room of the University Center on possible art movements in the 1970's. At 2:30 p.m. that day in Room 1105 of the Science Building he will speak in depth about his aesthetics and work. A question and answer period will follow.

County Group Plans To Attend Peace Meet

Members of the Madison County Citizens for Peace and Freedom are planning to attend the April 24 peace demonstration in Washington, D.C., and arrangements are being made for their transportation, according to the group's chairman, the Rev. James Shortall, a former assistant pastor at St. Elizabeth Catholic Church in Granite City.

The Washington demonstration, according to Rev. Shortall, will be the first day of a continuing 11-day period of protest against the United States involvement in Southeast Asia. The protest is jointly sponsored by a coalition of peace and labor groups opposed to the war and will culminate in a national moratorium on "business as usual" on Wednesday, May 5.

A meeting of the CPF will be held at 8 p.m. today in the Newman Center in Edwardsville to coordinate activities and propose future ones.

Stanton Sharp on Mound as Warriors Down Triad 7-3

Sophomore hurler John Stanton was credited with his first varsity victory Friday as the Granite City High School baseball Warriors conquered Triad 7-3 at Wilson Park.

Stanton relieved Ned Tapp in the fifth inning and struck out the first six men he faced. He was credited with seven strikeouts and no walks, duplicating Tapp's record in the first four innings.

"I have to give the major credit for the victory to the pitchers," Coach Gale Garbe said after the game. "A total of 14 strikeouts with no walks is outstanding for any high school game."

A third day Friday was Mike DeRunk who was credited with a two-run homer and a two-run double in the fifth and sixth innings.

Triad Takes Lead

In the first inning of the game, Tapp gave up three singles and a triple to give Triad a 3-0 lead, an advantage which they held through the third frame.

Three Southern Illinois University-Southwestern students have been selected to appear in the 1971 edition of "Outstanding College Athletes of America."

Three of the 13 were outstanding players on Coach Jim Dudley's basketball team, forwards Duane Thorneburg and John "Champ" Summers and guard Rich Essington. Two, Gus Schalkham and Bruce Frey, were members of Coach John Flamer's cross country team and Jack Whitte's track squad. Schalkham is also an outstanding wrestler, but was sidelined this past season due to injuries.

Two others, Jack Blake and John Carenza, are members of Coach Bob Guelker's soccer squad. Blake has been picked as a member of the United States Olympic squad which will try to earn a berth in the games held in Munich, Germany, next year.

Tom Kammann of Coach Harry Galatin's golf team was picked and five from Coach Roy Lee's baseball squad. The five baseball players are pitchers Steve Malone and Don Rains, outfielder Dan Cole and infielders John Belk, shortstop, and Dennis-Schutzenhofer, second base.

Insurance Forms Ready

Granite City Park District baseball and softball managers may pick up their insurance forms at the park office beginning today between 9 a.m. and 5 p.m.

1986 Warrior Football Star?

"I was planning on another top flight cross country runner, but guess I'm going to have to settle for a football player," Granite City High School cross country Coach Dick Harmon chuckled.

The Warrior mentor was speaking about his new son, Richard Patrick, who was born 3:45 p.m. Thursday, weighing in at 10 pounds.

START OF 425-FOOT HOMER (the ball at upper right) off the bat of John "Champ" Summers in the third game of a weekend series which Southern Illinois University-Southwestern swept from St. Louis University. Cougar Coach Roy Lee looks on with pleasure from his third-base coaching box.

Cougars Sweep 3 Games Over Bills in Weekend

Hitting, timely hitting, that is, hits the key to winning baseball.

Coach Roy Lee's Southern Illinois University-Southwestern baseball team, in sweeping three games from St. Louis University over the past weekend to run the Cougars' record to 8-5, would appear to back up effectively that theory on timely hitting. SIU is now 2-5.

SIU-SW won the opening contest of the series Friday by turning back the Bills, 5-1, in nine innings. Saturday, in two hard-played and bitterly contested games, the Cougars won the first game 3-2, and staged off a ninth-inning rally by the Bills to win the finale, 7-6.

Over the three games, however, both clubs knocked out 28 hits each, but the Cougars scored 15 tallies to the Bills' eight.

This week, the Cougars will be on the road for four games. They will be at Kirksville, Mo., Wednesday, to battle Northeast Missouri State in a pair and will play always tough McKendree College's twinbill Saturday at Lebanon.

In Saturday's leadoff game, the Bills looked like they were going to make a runaway of it when they loaded the bases in the opening inning with only one out.

SIU-SW's veteran southpaw, Steve Malone, of Marion, found his stuff and struck out the next two batters.

In the second frame, St. Louis broke through to take the lead, 1-0, on a single by Steve Dix and another by John McDermott.

Lee's Legions struck back in the third with two out and John Luckey the game on a double by John "Champ" Summers and another two-bagger by Jerry Pitcher.

The Cougars won it in the sixth on a leadoff single by Pitcher, a double by Willis Bundy and a single by Edwardsville's Mike Allaria, the Cougar catcher. Jack Gleason took the loss for the Bills. Malone is now 2-1.

Bills Take Lead
In Saturday's second game, the Bills again jumped out to a first-inning, one-run lead against the pitching of the Cougars' veteran Don Rains.

After two were out, the Bills blasted three straight singles (John Kraft, Marv Schaeffer and Ed Dehroony), but could score only one run. The Cougars regained the lead in the second, 2-1, on singles by Summers and Bundy and a sacrifice fly to right by winning pitcher Rains. The Bills' big catcher, Charles Franz, tied it up with a double in the third by driving

World Trip Highlighted By Audience with Pope

The Rev. and Mrs. Russell F. Harrison have returned from a 35,000-mile trip around the world, attending a world convention of the Christian Church and visiting mission work in many parts of Asia.

Rev. Harrison is the son of Mr. and Mrs. Ivan F. Harrison, 2562 Cleveland Blvd., and grew up in this community, graduating from Granite City High School. He resides in Indianapolis.

A high point of their trip was being received by Pope Paul VI in St. Peter's, Rome, Italy. The visit to the Vatican was a never-to-be-forgotten experience, according to Rev. Harrison, who said:

"You are impressed with the warmth and cordiality of Pope Paul. He has a soft, but clear voice and we were pleased when he spoke to us and our group in English. A firm handshake indicated the strength and conviction with which he greets his guests."

Rev. Harrison added, "We were pleased and surprised that his official photographer followed Pope Paul as he greeted the guests and took pictures. The next morning the picture which appears in the Press-Record was brought to our hotel in Rome. We are glad to share this treasured memory of our trip with relatives and friends in Granite City."

Fifteen countries were visited in the course of the Harrison's trip around the world. It was the first trip fully around the globe for Mrs. Nancy Harrison, but the third for Rev. Harrison.

Asia with its swelling populations and the accompanying problems of food, employment, clothing and shelter disturbed the American visitors.

"The work and service of the church in its Christian mission of witness in Asian countries demonstrates clearly how a very little can go a long long way," Rev. Harrison told the Press-Record.

EASTER SEASON has prompted Rev. and Mrs. Russell F. Harrison (center foreground), formerly of Granite City, to recall highlights of their visit to Pope Paul VI (far left) at the Vatican in Rome.

"It is disappointing to see on the one hand the growing opportunities for the church to serve as new doors open, and on the other hand to note the annual diminishing giving to overseas missions by the churches in North America these past few years."

Pope Paul on the day of their audience used four different languages in his greetings. His greeting to the world convention tour group of 91 people was as follows:

"We greet the group of delegates and participants from the Eighth Assembly of the World Convention of the Churches of Christ, held in Adelaide, Australia."

"We are pleased to know that two Catholic observers were among you on that happy occasion."

"It was an inspiring opportunity of renewal for you and your fellowship under the theme: 'One Gospel, One World.'"

"May God bless and render effective the generous resolution of witness in Asian countries you made at that time. May he grant you a pleasant journey and a safe return to your homes."

Rev. Harrison's thumbnail

on clear bright day. Inexpressable beauty and dire poverty. "IRAN — Wildest taxi ride yet. Russell took Nancy and three other women shopping. Bewildered gaze indicated Muslims wondering about the American and four wives."

"TURKEY — Breathtaking St. Sophia Church and Blue Mosque, presence of ancient Persia. Impressive call to prayer at dawn. Unique markets. Tiny shops."

"ITALY — Ancient history envelopes you as ever present. Walk through Coliseum and Roman Forum at night, subway back to hotel. Audience with Pope Paul VI in St. Peter's Rome, with greeting in English to our tour group."

"Unexpected handshake from Pope at the close. Pontiff photographer caught it on film. Something long to be remembered from the trip. Tivoli gardens and fountains by the hundreds beyond description. Tremendous."

"SWITZERLAND — Beautiful Geneva. Hotel room overlooking the lake. Visit to World Council of Churches headquarters. Geneva — mixture of old and new."

"FRANCE — 10 minutes by car from Geneva brings you to France and snow-capped mountains. Beautiful drive through small villages, some old, some new."

"ENGLAND — Seen mostly by night. Lights of Piccadilly Circus. Morning stroll from hotel to Buckingham Palace before morning departure for home."

"PHILIPPINES — Jeepneys (little Jeeps converted into 6-passenger taxis) with passengers jumping on and off. Visiting in home of Filipino friends. Seeing the Union Seminary and hearing about mission work in the islands."

"JAPAN — The 100 m.p.h. bullet trains. Fantastically beautiful (but somewhat cold and empty) Shinto and Buddhist shrines. Visiting International Christian University and discovering its impact on Japan. Enjoyed the quiet cordiality of the Japanese people. Struggled with chop sticks."

"HONG KONG — Vertical population of refugees in five-story apartments, 3,000 persons in each. Refugee family has a single 10x12-foot room. This is luxury compared to throwing-together shacks that dot the hillside. Fun of eating with Chinese merchant, wife who speaks no English, and grandchildren."

"THAILAND — Unbelievable klongs (like canals) filled with debris and filth. Boat traffic as heavy as auto traffic jams on busy streets. Native Thai music and dancing. Wonderful mission orientation and program at Nakorn Pathom. Worship in International Church."

"PAKISTAN — Brief airport stop extended to several hours as President of Pakistan arrived and stepped out on red carpet to greet long line of dignitaries. Our tour detained in lounge, watching through windows."

"INDIA — Experienced another culture. Went from New Delhi to Agra to see Taj Mahal

If you were going to design a lawn mower, where would you put the grass catcher?

On the right side, so it bumps into whatever's sticking up on your right? On the left side, so it does the same there? The fact is, most grass bags are afterthoughts. They stick out to one side. They simply weren't designed to be part of the mower. The Snapper V-21 or 18 has its grass bag between the handles. You can close trim on both sides, and vacuum your lawn while you're mowing. And the bag holds three times as much grass. We designed it that way. In fact, all the good things about Snapper V-21 or 18 are logical. The result of sound design and planning by people who make lawn equipment and only lawn equipment. Not afterthoughts.

Women Give Program At Thursday Service

A panel of women representing the Metro-East Panel of American Women provided the program at the Maundy Thursday services at the First United Presbyterian Church Thursday noon attended by more than 80 men from local service clubs.

Members attending were from the Midwestern and Granite City Rotary Clubs and the Granite City Optimist Club.

Mrs. John Gordon of Granite City served as moderator for the panel which included women from different faiths. They discussed instances in their lives in which they had been subjected to prejudice in some way.

These women speak on such incidents in a casual and sometimes humorous manner in an effort to show that all people can sensibly discuss and solve their problems without animosity.

The panel included Mrs. Andrew Jackson, a negro woman, and Mrs. Robert O'Connor of the Catholic faith, both from Alton; Mrs. Mary Sachar, a representative of the Jewish faith from St. Louis; and Mrs. Donald Briney, a Protestant living in Edwardsville.

Rev. David Maxton is pastor of the host church.

Mrs. August Beckman was given recognition for her 35 years of membership in the Homemakers organization. She is a charter member of the Granite City Unit, having hosted the initial meeting of the group. She joined the Homemakers April 7, 1939.

Hearing on Proposed Lake Harbor

APRIL 12, 1946

For nearly two hours, between 175 and 200 representatives of business, labor, industry, railroads, waterways and municipal officials with interests in the Quad-City area expressed their views— orally and in writing— on a proposed harbor at Horse Lake. The public hearing was conducted by Col. L. B. Peagin, St. Louis district engineer, at the local YMCA.

A contract has been let for Federal Public Housing Authority to H. H. Deal & Company, Inc., of St. Louis for the dismantling and removal of 22 quonset huts from the Granite City Engineer Depot, and their re-erection and conversion to provide 44 temporary family housing units for veterans in Lincoln Place.

Separate Illinois Returns If Federal Taxes Paid Separately

By GEORGE E. MAHIN
Director, Illinois Department of Revenue

1. My wife and I file separate federal returns. Can we file separate Illinois returns?

Yes, you must file returns in Illinois on a separate basis if you file federal returns on a separate basis.

2. I am an Illinois resident and have a savings account at a savings and loan association in Los Angeles. I report the interest earned from that account on my Illinois return? Yes, as an Illinois resident this income is subject to Illinois income tax regardless of where you earned the income.

3. During 1970, I cashed in several U. S. savings bonds Series E.

I have reported the interest received on my federal income tax return. Must I report this income on my Illinois return?

No, interest earned on U. S. savings bonds is not subject to Illinois income tax.

4. Is the Illinois income tax return Form IL-1040 due at the same time as the federal income tax return?

Yes, Illinois returns are due from individual taxpayers (other than those on a fiscal year basis) on or before midnight April 15, 1971.

If the envelope is postmarked before midnight of April 15, 1971, the return will have been filed on time.

5. In 1970, I received \$35 in interest payments from certain municipal bonds. I was told that this interest is tax exempt. Does this mean I will not have to pay an Illinois income tax on this interest?

Interest on municipal bonds is tax exempt only for federal tax purposes.

Interest on municipal bonds is subject to Illinois income tax and is added to your federal adjusted gross income to determine your Illinois income subject to tax.

6. I lived and worked in New York until June 1970, when I took a job and moved here with my family.

Will the salary I earned for the entire year from both jobs be subject to Illinois tax?

No, only the salary you earned while you were a resident of Illinois will be subject to Illinois tax.

You would be considered a resident if you moved to Illinois in June.

Before that time, you would be considered a nonresident.

You must file an Illinois Form IL-1040 and attach a Schedule NR.

On this schedule you should list the part of your salary earned while you were a resident and the part of your salary earned while you were a nonresident.

Major points and minor, too

by Gordon M. Quarnstrom

Q. A comfortable place to stay in Rabb, please.

—John McK, Evanston, Ill.

A. The Rabb Hotel, a truly luxurious hotel, is a few miles from the downtown business district. You'll need a taxi, but the surroundings are superb.

Q. A book to help me enjoy my trip to Mexico more.

—Brent Stark, Cheney, W. A.

A. Finest we've seen is "Mexico" by Hans Annabheim and Hans Luenberger, with more than 100 fine color photos. It is available from Rand McNally through your favorite bookstore. I cannot recommend it too highly.

Q. Is there any relationship between drinking and the deaths of talk singing stars?

—Lester Hill, San Fernando, A.

A. Undoubtedly. Alcohol intoxicates with many Q's, including all the sleeping pills and other barbiturates, plus many other tranquilizers and anti-anesthetics.

Alcohol is particularly dangerous for any driver who has taken a tranquilizer or barbiturate, incidentally.

Q. You write about Iceland. When is the best time to visit?

—Mae Prately, Centralia, W. A.

A. Summer, naturally, when you have up to 24 hours of day light.

But Iceland is most interesting in spring and fall, and if you're a nature lover, the best time to visit is in the winter. You'll need a stopover en route. And costs are so reasonable.

Q. My wife wants a wig. Will it make her hair fall out?

—D.A.R., Milwaukee.

A. Medical experts say they haven't heard of this happening. I've read about spallies and aulause in reference to German wine. What do they refer to?

—Norma Hansen, Bellevue, W. A.

A. According to the Gutrum wine people of Nierstein, Germany, spallies means late gathering of selected bunches. The Guttrums, by the way, have been in the wine business since 1534.

Q. I read about "insurance to value." Is it important, and other barbiturates, plus many other tranquilizers and anti-anesthetics.

—N.E. Pieper, Westfield, N. Y.

A. It means having enough insurance to replace your house and contents in event of fire or taken a tranquilizer or barbiturate, incidentally.

Q. It is recommended that you see your agent every year to make sure you have sufficient coverage in view of rising property costs.

Election of Kemp Gives Ad School Board Representation to the Blair-Dunbar Area

Election of Theodor Kemp and Frank L. Derner to the Madison board of education Saturday is no reflection on the service of Oel Blumensack, who has been a school board member for 19 years. With three cycle candidates seeking two three-year board positions, one had to lose.

The simplest analysis of the balloting would be to say that most of the 11th School District cast single votes for Mr. Kemp, a resident of that area, and turned out in large numbers.

The Harris School precinct, in contrast, voted primarily for the other two candidates. But its turnout, while greater numerically, was not as high a percentage of the total number of registered voters.

Although this is a generally accurate summary, it should be noted that all three aspirants drew some support in all neighborhoods. And there was widespread realization that the Blair-Dunbar area was inadequately represented; as a result of the latest election, this representation will increase to two of the seven members.

Still another factor was Mr. Kemp's qualifications for board membership. An Air Force veteran associated with the A. O. Smith Corp. plant as clerk of the engineering department, he is active in church work, the Madison High Parent-Teacher Association, the American Legion and the Masonic order. He is married and the father of four children.

Re-election congratulations go not only to Mr. Derner but to three members of the Venice school board, Leo Davinroy, Jack Tolliver and Elmer Taylor, and three members of the Granite City board of education, George E. Moore Sr., Donald W. Stucke and Harold W. Davis.

Although the absence of ballot competition in Granite City and Venice led to a presidential election, this situation probably would not have resulted unless the board members were setting school policies substantially in accord with the thinking of the electorates.

Refreshing Change in East St. Louis City Outlook Can Indirectly Benefit This Area

Madison County is different in countless ways from St. Clair County but there is no doubt that the proximity of the two counties has had a number of ramifications.

We can recall a few years ago when a wire service news account of an occurrence in East St. Louis, which was a headline in the Quad-City taxing agency considerable extra interest payments on a bond issue it was about to float. There was no good reason for the bond

to be so touchy, but from such a long distance they incorrectly assumed that the community opposite St. Louis were similar and contiguous.

Other instances could be cited in which excesses to the south of here have created a damaging but false impression of the city. St. Louis newspaper headlines consistently tar the entire Illinois section of the metropolitan area with an "east side" brush.

With this in mind, it is pleasing to see the East St. Louis political machine defeated April 6 through the election of a reform candidate for mayor, James Williams, along with his two commissioner running mates.

Utopia may not result, but there is a real chance for improvement in the debt-ridden municipal government. And Governor Ogilvie has pledged an active state role in putting East St. Louis back on its feet.

The effort to separate the East St. Louis and Quad-City sections of the East Side Levee & Sanitary District will continue, and properly so, since the attempts to equitably finance and coordinate drainage services between the two areas through one district have failed miserably over a period of more than six decades.

Additional Fiscal Controls Being Proposed For State's Universities May Go Too Far

State Auditor Howlett's idea on additional fiscal controls for state colleges and universities offer food for thought but may go too far, endangering the academic freedom which he acknowledges should be maintained.

He suggests that the new state comptroller, who is to take office in 1973 under the 1970 Illinois Constitution, audit all college expenditures before payment. Contracts would be examined, with attention given to modifications after they are awarded. Evidence of receipt of materials would be required, along with architectural certification that construction has been performed.

It is important that there be sufficient documentation to prove the integrity of each transaction, and his recommendations could lead to greater assurance in this regard.

He goes on to suggest that the state attorney general serve as attorney for the universities, with assistants assigned to the various schools. He would have the state treasurer handle federal grants and contracts, and would have all campus construction handled through the Division of Architecture and Engineering of the Illinois Department of General Services.

The latter suggestions could standardize the colleges to the extent that they had insufficient flexibility, and the recommendations would appear to be an argument in favor of autonomy regarding selection of architects.

But with the governor suggesting a one-year state university budget for fiscal year 1972-1973, it is clear that higher education has become a tremendously big business, and it may be a good idea to thoroughly consider all of Mr. Howlett's proposals.

Balmy Weather Makes Area Seem Like Resort

Where does a community apply for ranking with Florida and California resorts as a locality blessed with outstanding weather?

Snowfall here was hardly measurable until last week's early spring. March had included many clear days with balmy temperatures, and the most recent six days—including the Easter and Passover observances—have been ideal.

Nature's handiwork and the accompanying lift it brings in individual spirits make spring just about the finest time of the year—a season of renewal with resurgence of confidence and rededication to making life full and active and helpful.

The Quad-Cities and Madison County are a great place to live and work. The weather has experienced so far in 1971 reinforces that belief. Palm Beach and Miami Beach, look to your laurels!

Governor Favors Implied Consent Law to Reduce Drunken Driving

By RICHARD B. OGILVIE Governor of Illinois

How many times has your wife, or your child, or someone else dear to you been late in arriving home by car?

How many times have you worried yourself sick that the worst may have happened?

And how many times have the St. Louis, the worst does happen to more than 30,000 people.

Another 800,000 people suffer from the effects of a drunk driver. The cost to the state in the event that he is arrested on suspicion of drunken driving, is \$100,000.

If the driver refuses to take the test, his license is suspended for three months.

Some who criticize this proposal contend that an implied consent law will violate the constitutional rights of drivers.

It does not think that this will be the case, however.

Forty-eight other states have enacted implied consent laws.

It does not appear that the citizens of these states have lost their freedom of movement or their rights of privacy, and the courts have backed up this position.

Furthermore, what is more important than the saving of thousands of lives in Illinois through the implied consent and legal procedure?

An implied consent law can make a difference in the number of deaths and injuries, we are not acting responsibly.

The fact is that we can do something which will make a difference, something which can make those minutes—or hours—of waiting for people you love easier to bear.

Let me just add a personal note that may sound familiar to many of you.

My daughter has taken her high school driving course, and is about to venture on the highways by herself.

I think she will do her part as a good driver.

But I am hopeful, too, that the risks inherent in anything as complicated as our modern traffic won't be made worse by a drunk driver.

I want her to live, and I want your children to live.

Firing of Skilled Officer Shows Need for Improved Merit System

To the Editor:

Stanley Krakowicki worked in the Investigative Division of the Illinois Secretary of State's office for seven years, and held the rank of lieutenant. I will do.

Many Quad-Cityans came to know him in these years and found him a friend to all.

His home has been scores of people, friends and strangers, seeking advice about the intricacies of license procedures.

Often his help went far beyond mere advice, as he would volunteer to personally take applications, licenses and problems with him to Springfield.

This wasn't required work, but he did it to speed results for those persons concerned about their license problems.

His days started early, often before 6 a.m., in order for him to make all his stops, and 5 p.m. did not often find his day completed.

Many were the times he was called from supper or awakened at night by a call in need of help.

I cannot remember a weekend which wasn't laden with phone calls or visits involving his professional services.

At the time he was dismissed, he still had over six weeks of paid vacation to which he was entitled, but never took; and apparently will never be paid for.

His many friends included Democrats, Republicans and those in between.

When the great purge began after the death of Secretary Paul Powell, many urged his retention, even though the wave of job seekers was engulfing all.

Mr. Krakowicki was fired, not because of poor work, laziness or misconduct, but only because of his political affiliation.

He was discarded after seven years of employment, informed by a curt and arrogant letter which began "It is in the best interest of the Office of the Secretary of State."

What an anachronism this name served that very office so ably and diligently for so many years.

Mr. Krakowicki was not bitter, realizing from the start that his job hinged on the whims of politics.

My feelings are that we, the citizens, the taxpayers of Illinois, are the even greater losers.

We see many examples of trained, competent officials replaced by inexperienced "political plums."

This patronage problem must now be solved.

We must urge our legislators to push for institution of a merit system which would assure the taxpayers of the best man serving in state positions.

Quad-Cityans, whatever their politics, are going to miss Stanley Krakowicki's knowledge and service in the job he knew so well.

If you don't believe this, you can ask me. I'm his son.

ALDERMAN WILL DO BEST
To the Editor:

I hope the mayor and citizens will not have ill feelings toward me because I have spoken out in behalf of our city.

I will say at this time that confusion in our city will eventually come to an end and a legal manner and I hope that not one man will stand in the way of progress or the future of our city. I hope the courts will bring this to an end.

SCOUTS BROUGHT EASTER JOYS TO STATE HOSPITAL
To the Editor:

Each year the Brownies and Girl Scouts of District Four, River Bluffs Council contribute to the joy and happiness of the residents at the State Hospital.

We have come to look forward to the "bunny boxes" these girls give to the patients. Each year, much time and effort is put into the making of these boxes.

We are grateful also to the parents who bring the boxes to us. We are grateful to the youth, Mr. Dean's daughter, who brought the boxes to the hospital.

We have been trying for the past two years to raise enough money to build a community center for not only the youth but everyone—our senior citizens and young adults as well as our youth.

Mr. Dean has never attended one of our meetings. Mr. Staicoff has helped with every project we have had to raise money for our center.

He is a member of the NYA and has been a volunteer for the past two years.

He is to be a volunteer for the past two years.

He is to be a volunteer for the past two years.

He is to be a volunteer for the past two years.

Charged After Accident

Fred Russell, 30, of St. Louis, was arrested at 6:40 p.m. Friday in Venice and was charged with driving with a suspended drivers license after his station wagon drove off Broadway near Main Street and struck a telephone pole. He told police another auto forced his vehicle off the road at the curve. Bond was set at \$100.

Juveniles Arrested

Two Madison juveniles, ages 9 and 12, were arrested at 6 p.m. Friday after they allegedly drove the auto of Mary Lee Foster, 135 Garasche Homes, Madison, into the auto of Al Rusick, 2711 Idaho Ave., in the 1800 block of Market Street in Madison. The left front fenders of both autos were damaged.

Reba Hancock Becomes Mrs. Timothy Gardner

First United Pentecostal Church was the scene of the wedding Friday evening of Miss Reba Kay Hancock and Timothy Wade Gardner.

The candlelight ceremony was performed at 7:30 by the Rev. C. M. O'Guin before the altar decorated with white and yellow flowers and greenery.

The bride is a daughter of Mr. and Mrs. Guy W. Hancock, 2444 Bryan Ave. Mr. Gardner's parents are Mr. and Mrs. Aubrey Gardner, 2230 Cleveland Blvd.

A long gown of Chantilly lace was worn by the bride. It was styled with a scalloped neckline, a fitted waist and long sleeves. A chapel train fell from the waistline and a shoulder-length veil of illusion was secured with a lace and pearl headpiece. A tear-drop bouquet of carnations was centered with a corsage of pink carnations, lilies of the valley and stephanotis.

Miss Linda Hancock, a sister of the bride, was maid of honor, and another sister, Miss Teresa Hancock, and Miss Mitzi Summers, a cousin, served as bridesmaids.

Their gowns were made alike of crepe with high rolled necklines, short sleeves trimmed with Venetian lace and long trains falling from the shoulders to give a flared effect. The honor attendant was in blue with a bouquet of carnations

tipped blue, while the maids, dressed in lime, held carnations tipped yellow.

Rita Ellis and Jay Huber, cousins of the bride and groom respectively, served as flower girl and ring bearer. The former wore a white lace and chiffon dress and carried rose petals in a white basket trimmed with ribbon bows and valley lilies. Kathy Justice and Ricky Justice were candlelighters.

James Longbottom was best man. The groomsmen and ushers included James Woodson, Donald White, Paul Vanguilder and Kenneth McMannis.

For her daughters wedding Mrs. Hancock wore a blue dress with a lace coat and blue accessories, while the bridegroom's mother chose a light pink crepe dress with lace trim, a matching lace coat and white accessories. Both had corsages of white carnations tipped with pink.

A reception was held at the Travelodge and the newlyweds left for a brief honeymoon trip. They will reside at 1930 Cleveland Blvd. Both young people attend the Granite City High School.

In loving memory of my husband JOE CHEPELY who passed away April 12, 1969.
Two years have passed since that sad day.
You went to un-awakened sleep.
And I was left alone.
It is not true, the hurt of persons I miss.
Lessens as time goes by.
But friends and kin, save one
Have helped me carry on.
The days go by, but nights are long and I'm alone.

Violist Featured In Two Concerts

Guillermo Perich, the Saint Louis Symphony Orchestra's principal violist, will play the most renowned piece ever written for solo viola and orchestra—Berlioz's Harold in Italy—at subscription concerts at 1:30 p.m. Friday and 8:30 p.m. Saturday, in Powell Symphony Hall.

Conductor and music director, Walter Susskind, will direct the Berlioz piece and the orchestra's first performance of Martin's Concerto for Seven Winds, Strings, and Percussion, John Covelli, one of the orchestra's two conducting fellows this season, will be on the podium for Debussy's La Mer.

In Harold in Italy, the Symphony plays a series of "scenes" (movements), with Perich's viola acting as a person—a romantic poet wandering about the Italian countryside adding his comments to the "scenes." The music was inspired by the poet Byron's "Childe Harold."

Tickets for Friday's concert are priced at \$1.50, \$3, \$4, \$4.50 and \$6.50. Tickets for Saturday's concert are priced at \$2, \$3.50, \$4.50, \$5, \$6 and \$7.

FOURSOME SINGS OUT. Members of a barbershop quartet practicing their role for the East Bank Players upcoming production, "The Music Man." From left are Mike Tharp, an SIU-SW drama major, Dann Bugg, Granite City High School senior, Marvin VanMetre, Tri-Cities Area YMCA executive director, and Jack Butterfield of Collinsville.

'Music Man' Foursome Plays Key Role

Recruiting a barbershop quartet to sing the demanding songs of "The Music Man" has not been easy, according to Mrs. Millie Hoelscher who is directing the East Bank Players production.

The popular Meredith Wilson musical is scheduled for presentation on two consecutive Friday and Saturday nights, April 23 and 24 and April 30 and May 1, at the Granite City Elks Club.

Initially, the local theatrical company contacted the Collinsville Chapter of the Society for the Preservation and Encouragement of Barbershop Quartet Singing in America to "borrow an appropriate foursome to appear in 'The Music Man,' Mrs. Hoelscher said.

Unfortunately, in one respect, the society was badly engaged preparing their own spring and summer performance schedule. As a result the East Bank Players were forced to look to their own company and recruit new members to put together a quartet, the director explained, pointing out the end result is "fine."

SIU-SW Student

The quartet includes Mike Tharp of Granite City who is a student at Southern Illinois University—Southwestern campus majoring in drama. He has appeared in numerous plays on campus, recently performing in three works at one time with "The Quonset," the student-run experimental theatre.

Mike placed among 14 semifinalists out of 90 groups entered in the Intercollegiate Music Festival for the 1971 competition. He last appeared with East Bank Players in "Guys and Dolls." Possessor of a luxuriant growth of long blond hair, for "The Music Man," Mike will don a short-haired wig, the director noted.

Singing second tenor in the quartet is Dann Bugg, a Granite City High School junior who sings in the Advanced Mixed Chorus and Boys Glee Club at school. He also is a member of his church choir and will make his debut in musical comedy in the Players show.

The most experienced barbershop singer among the quartet is Marvin Van Metre, executive director of the Tri-Cities Area YMCA. He began singing "barbershop" in high school and during his college years was a member of a college quartet which fulfilled more than 200 appearances a year at functions in Iowa.

At Home in Iowa Van Metre is a graduate of Iowa State University. Coincidentally, Iowa is the locale for "The Music Man." His former quartet sang on a weekly radio show and was among the first live acts to appear on WOIT-TV, Iowa's first television station.

The YMCA executive, his wife, Jean, and their five teenage children reside in Granite City. Rounding out the quartet is Jack Butterfield of Collinsville, who said he has waited since high school to sing in "The Music Man," but was unable to find a community theatre group ready to undertake the production.

Rehearsals are continuing in the Grand Ballroom of the Elks Club and tickets for the forthcoming production now are available from cast members or at the club.

Candlelight Setting as Gail Cunningham is Wed

The wedding of Miss Gail Cunningham, a daughter of Mr. and Mrs. Fred Cunningham, 17 Frontenac Lane, and David L. Hug, whose parents are Mr. and Mrs. Delmar Hug of Edwardsville, took place Saturday evening at Eden United Church of Christ in Edwardsville.

The Rev. Donald Crismon performed the candlelight ceremony at 7:30 and a reception was held afterward at the Elks Club in Granite City.

The vocalist, Kathryn Klopmeier, sang "We've Only Just Begun," and the Lord's Prayer, accompanied at the organ by Mary Eyston.

Given in marriage by her father, the bride wore a floor-length gown of ivory lace and organza with a fitted bodice, a high neck and long puffed sleeves with lace cuffs. A chapel train, attached at the waist, was trimmed with lace and a shoulder-length veil of illusion was secured with a pearl and lace Camelot headpiece. White

daisies, yellow roses and baby breaths were combined in the bride's bouquet.

Mrs. James Harsh, a sister-in-law of the bride, was honor attendant and Miss Susan Traub and Miss Jayne Watson served as bridesmaids. Mrs. Harsh was in a denim blue gown, while the bridesmaids wore navy blue. The gowns were made alike with very lace cuffs and all three carried bouquets of yellow daisies and baby breath.

Gordon Hug was best man for his brother, and Charles Williams, James Harsh, Eric Cunningham and Jeff Watson made up the list of groomsmen and ushers. Tod Cunningham lighted the candles.

A green silk wool suit and green accessories was worn by the bride's mother. The bridegroom's mother was in a light blue silk shantung dress made on princess lines. Her accessories were blue. Both wore corsages of white Eucharist lilies.

The former Miss Cunningham graduated from the Granite City schools, and Southern Illinois University with a B.S. degree in education.

Mr. Hug received a B.A. degree in philosophy from SIU-Carbondale campus and taught in East St. Louis before entering military service. He is presently stationed at Fort Leonard Wood.

The rehearsal dinner was given Friday evening by the bridegroom's parents at the Flaming Pit in Edwardsville.

Nameoki Vote Results Unchanged by Canvass

The addition of three votes to the write-in tally for Edgar Patrick in the April 6 Nameoki township election was the only change in the vote returns resulting from the official vote canvass Saturday. The canvass was made at the Nameoki town hall.

Patrick, who had received 27 votes in a write-in canvass for supervisor, received 30 votes as a result of the canvass. All other tallies announced previously remained unchanged.

Meanwhile, Granite City has not set a definite date for its vote canvass in the April 6 city election. Leon Scroggins of city attorney, said he is checking the date for the latest possible canvass date. If state law does not require an earlier date, the canvass will be held April 19.

George Gordon, apparently the defeated candidate in the Seventh Ward alderman election, said he is studying the possibility of proceedings for a vote recount if the canvass does not show the unofficial results of the unofficial results to 581 for Gordon and 575 for Patrick.

Seeks Ruling on Tax Procedure

Miss Eulalia Hotz, Madison county clerk, was to meet today with State's Attorney R. W. Griffith and Assistant State's Attorney Marshall Smith at Edwardsville to determine procedure in extension of 1970 tax rates throughout the county.

The meeting was arranged following a conference of the Illinois Association of County Clerks and Records attended by Miss Hotz in Springfield Thursday concerning legality of tax rates based on valuations from which Homestead Exemptions had been deducted. The Homestead exemptions were held illegal last week by the Illinois Supreme Court.

All assessment work has been completed in Madison county and tax rates have been partially extended, Miss Hotz said. If the court ruling is followed, a revision of assessments would be necessary and this year's tax books would be six months late, she noted.

'HERE'S ONE,' tiny Karen Heaton exclaims as she pulls out an Easter egg during the Granite City Park District annual hunt. The event was held Saturday in Wilson Park pavilion, instead of outdoors, due to muddy conditions. Karen, a kindergarten pupil, is the daughter of Mr. and Mrs. Herbert Heaton, 2519 Jerden Ave.

Egg Hunting in Straw Is Successful at Park

Hunting for eggs in straw was different, but the children didn't seem to mind the change, Harold Brown, Granite City Park District superintendent, remarked today.

Brown's comments related to the park-sponsored Easter egg hunt held Saturday in the Wilson Park rink pavilion where bales of straw strewn about the floor provided adequate cover for hiding 5,000 foil-wrapped eggs.

More than 500 youngsters from tiny pre-schoolers to second grade pupils participated in four hunts which were set at separate hours Saturday to enable children to compete with others of their age group.

The prospect of extremely muddy conditions in the Wilson Park grounds resulting from last week's snowfall caused park officials to move the annual egg hunt indoors for the first time.

All Enjoy It
Holding the hunt in a confined area appeared to give "the kids a chance to look for the eggs themselves without interference from older family members," Brown commented. "They all seemed to enjoy it."

None of those taking part were truly disappointed, he noted, pointing out that each child received a candy egg whether or not they were successful in locating the hidden treats.

Prize winners in the different age groups, with the golden egg winner, the boy and girl who found the most eggs and the individual child who collected the most eggs listed in sequence, were:

Black Citizens' Group Aids Tragedy Victims

Members of the Black Citizens Social Club of Venice are presenting \$50 cash donations this week to Venice families who have suffered personal tragedies recently.

The club raised \$300 by sponsoring a benefit basketball game between the Continental Can Co. team and the Phillips Dodge Aluminum Products, Inc., squad on March 26 in the Venice High School gymnasium.

The money raised is being distributed evenly among five families left homeless by a fire at 1032 and 1034 Logan St., Venice, March 15, and the family of Alvin Thomas Jr., who was injured fatally in a fight March 21 at a Venice pool hall.

Recipients are Mrs. Ora Harris, Mrs. Rosilee McGee, Mr. and Mrs. Sylvester Bolden, A. C. Butler and Murphy Heywood, all victims of the fire, and Mrs. Thelma Thomas, 61, Grenzer Homes.

The social club was formed last year for the purpose of helping improve the environment of black communities in the Quad-City area. In addition to charitable activities, the club plans dances for children and dinners and social activities for adults. The activities are open to anyone who wishes to attend.

Lawrence Davis, president, said the club is a "Non-violent organization started in the hope

that we may rehabilitate and establish equality among black communities," but continued that it also will have a social function.

The temporary vice-president is Frank Mathews, recording secretary is Ethel Williams, treasurer is George Wilson and Roland Wilson is club chairman.

Persons interested in joining the Black Citizens Social Club of Venice may contact Wilson at 451-5704 or Mrs. Williams at 451-7688.
